

## **Boutique Power**

### **COMPANY OVERVIEW**

Boutique Power specialises in the assessment, design, supply, installation and support of remote area power supplies and renewable energy systems,

### **KEY CAPABILITIES**

1. Provision of renewable energy systems for residential, community and resort use, including grid connect, grid support and off-grid applications. This includes the full cycle of assessment, specification, design, supply, installation, ongoing maintenance and technical support. Technologies include PV (solar), wind and micro-hydro power.
2. Design and supply of solar powered water pumping systems.
3. Consultancy and project management in the above areas.
4. Particular interest in micro-hydro and diesel/battery hybrid systems, including mini-grids
5. Willingness to undertake work within Australia and internationally.

### **EXPERIENCE**

The Technical Director, Max Enfield, has had over 24 years experience in the industry. He has been involved in the site and load assessment, specification, design, project management, installation supervision and ongoing customer support of over 300 remote area power supply installations. Some of these installations are located in the remotest parts of Queensland, including islands in Torres Strait and the Gulf of Carpentaria. Nearly all the installations involved solar power, wind power, micro-hydro power or a combination of these.

His experience relates mostly to power supplies for single dwellings; however systems for multiple dwellings, resorts, aboriginal communities and outstations, telecommunications sites, water pumping and community facilities are included.

### **EXPERIENCE**

Notable projects include the project management of 11 systems in Far North Qld for indigenous communities as part of the Bushlight program; design and project management of a diesel/PV hybrid mini-grid for a resort in Torres Strait and the design and installation of a micro-hydro system to power sewerage treatment in Mossman Gorge National Park.

### **KEY STAFF**

Max Enfield, *BSc, MACS, Affil IE Aust* , Principal & Technical Director

Marion Ockenden, Principal & Marketing Director
